The company

Liveli is a company based in Ontario, Canada. Liveli is a Social Networking and Live Entertainment Hub. Users can share their Lifestyle, Earn real money from posts and contents, stream live events, watch live entertainment and stay connected to Family & Friends. Liveli is your all in one App

Solution

Wendu Cloud Security and Cost Management Platform solution.

Products

AWS RDS Aurora Serverless, Lambda, Api gateway, Amazon S3, AWS Step functions, AWS Certificate Manager, AWS secret manager, cloudfront.

Business Challenge

Prior to using Wendu, the team at Liveli lacked the maturity and the process to manage their cloud environment and infrastructure in order to discover areas cloud optimization can be applied to reduce spend. Liveli was looking for a high-level management tool to help manage their cloud environment. CloudPlexo provided Wendu - Cloud security and cost management platform through continuous monitoring, total visibility of operations spending, identifying underutilized and idle resources.
.

Working Together

Trusted Independent Software Vendor (ISV) for Liveli

Why Amazon Web Services

AWS was the preferred choice as the world-leading cloud platform for flexibility, elasticity, scale and cost. CloudPlexo worked with Liveli on their cloud management objective to meet all their requirements. CloudPlexo SaaS solution used a range of AWS services such as;
AWS RDS Aurora Serverless, Lambda, Api gateway, Amazon S3, AWS Step functions, AWS Certificate Manager, AWS secret manager, cloudfront.

Outcomes

CloudPlexo SaaS solution, Wendu Cloud Security and cost management platform implemented within AWS solved Liveli cost optimization of cloud environments through the use of Wendu for high-level management of their cloud environment, cost optimization, scheduling of non-production VM's and databases, forecasting and inventory management. As a result Liveli were able to make significant cost savings of up to 28%.
